UNDERGROUND COMIX, FANZINES, AND OTHER GOODIES!

A lot of new underground titles have appeared since my last catalogue, some exceptionally fine and some just plain rotten. Richard Corben has come out with more fine work in SKULL, SLOW DEATH, and FANTAGOR. Metzger's second issue of MOONDOG is out at last and word is that he has enough new work for another book and part of a third MOONDOG finished. Crumb is represented in BIJOU's newest issue and in MR. NATURAL #2, his best book in quite a while. Dan O'Neill (Od Bodkins) has put out the second and third issues of his COMICS & STORIES and the first ish is again available. Not many new fanzines have appeared since last list, since they usually come out in the summer in time for the cons. From this area appear 3 of the new 'zines. PROMETHEAN ENTERPRISES (Al Daveron, Jim Vadeboncoeur, and myself) has put out its 4th issue (and our best yet!). ALL STARS #2 has come out from San Francisco with a combination of old fan (Jeff Jones & friends) art and new material from the underground. And, PROMETHEAN has also published AL WILLIAMSON: HIS WORK by Jim Vadeboncoeur, first in a series of comprehensive, illustrated checklists. ...Best wishes for the new year to all of you!Jan'72: List #7

IMPORTANT: Please include 25¢ for postage on any order under $4.00! All items, unless otherwise noted, are mint and stocked in depth. As always, alternates are appreciated and are needed once in a while. In addition, please include 35¢ on any poster order to cover the cost of separate mailing and heavy tube. Underground comix are for adults over 18, please. Lastly, for those who want First Class mailing: postage is 8¢ per ounce; comix are approximately 2 ounces each, 'zines 6 ounces: figure accordingly.

RED SHADOWS

$6.00

by ROBERT E. HOWARD

The first of Robert E. Howard's great heroes, Solomon Kane saw print for the first time in the August 1928 issue of Weird Tales magazine. At that time, Howard was twenty-two years old, and had been contributing to the magazine for three years.

It is hard to believe that the man to create Conan the Cimmerian was the author that painted the humerous, blundering superman of the mountain country, Breckinridge Elkins. Equally incredulous and different is this character of Solomon Kane to whom Robert E. Howard gave a full life of sword and sorcery adventure in the Sixteenth Century. Solomon is a tall man, wiry but not heavy in the extreme; a born swordsman with great strength and tenacity. A Puritan, he has a penchant for righting of wrongs done to others. His superhuman efforts and energies and successes are related directly to his fanaticism. Howard paints him as a sombre, black clad swordsman, searching for something that he may never find. For all his successes, he is alone — an almost pathetic figure.

RED SHADOWS is a compilation of all of the known Solomon Kane writings — and there are twelve stories and three poems included in this volume. The episodes begin in England with "Skulls In The Stars" and "The Right Hand of Doom", tales of sorcery and horror. In "Red Shadows", Kane is involved in his first African adventure, returning to continental Europe for a pair of weird episodes.

With "The Moon of Skulls", Robert E. Howard's fondness for archeology and dreams of a lost race grow obvious, for Kane returns to Africa and comes upon the evil Atlantean city of Negari. Subsequent African adventures lead Kane to a hidden walled city of vampires, a lost plateau with a race of winged men, and a warlike race descended from ancient Assyrians.

Other Kane exploits lead him to the Spanish Main and back to England for swordplay with pirates and an evil nobleman.

The illustrations and dust wrapper are the work of Jeff Jones.

RED BLADES

OF

BLACK CATHAY

ROBERT E. HOWARD
&
TEVIS CLYDE SMITH

The title story of this new volume by Robert E. Howard and Tevis Clyde Smith was written in 1930 and appeared in Oriental Stories magazine in the February-March 1931 issue. Oriental Stories (later Magic Carpet) was a companion magazine to the popular Weird Tales, and it featured swashbucklers that were often mystic or out-and-out fantasy centered around the Asiatic continent. "Red Blades of Black Cathay," dashing and romantic, was written in the fashion of Harold Lamb and was eminently suitable to the magazine.

The two other inclusions, "Diogenes of Today" and "Eighttoes Makes a Play" were short collaborations which have never seen print in any form.

Tevis Clyde Smith is a Texan whose association with the late Robert E. Howard (1906-1936) reaches back to 1923 and spans a period that was almost half of the life of the prolific creator of Conan and Solomon Kane. Smith is the author of five books, the most recent being THE CARDBOARD GOD. He lives in Brownwood, Texas.

Illustrations for the volume are the work of David Karbonik.

In addition to the books above and below, also in stock are:
American Heritage (April, 1968, hardbound issue with a nice article on Walt Disney and Mickey Mouse, with some panels from old Mickey cartoons.) $1.50

DONALD M. GRANT
Publisher

In a space of 35 years—the years between 1935 and 1970—Virgil Finlay left his mark on the field of Science-Fantasy, producing a total of more than 2800 examples of his art. To his legion of fans he was far more than an illustrator; he was an intricate part of the stories that were introduced by his creativity.

This volume is divided into three sections to include SELECTED ILLUSTRATIONS by Virgil Finlay, VIRGIL FINLAY, AN APPRECIATION by Sam Moskowitz, and a VIRGIL FINLAY CHECKLIST by Gerry de la Ree.

The illustrations include a cross section of Finlay's finest work over a wide range of years. Included are his first magazine sale, a "reclining Medusa" published in 1935, and "Taurus," one of his last, which appeared in 1970. Here are superb illustrations for *Weird Tales, Famous Fantastic Mysteries, Fantastic Novels, Argosy,* and *American Weekly;* for authors' Merritt, Mann, Lovecraft, Quinn, Cummings, and Taine. Also included are a quartet of full-color reproductions from the vintage 1941-42 years.

VIRGIL FINLAY by Sam Moskowitz is a long biography-appreciation by science-fantasy's foremost historian. A VIRGIL FINLAY CHECKLIST was compiled by Gerry de la Ree, the well-known collector whose Finlay originals number approximately 150 items.
